This is a compilation of forest fire statistics covering the Calendar Year 1955 as reported to the United States Forest Service by its field offices, cooperating States, the Department of the Interior, and the Tennessee Valley Authority.

The figures are shown separately by the individual States reporting and totals are also given for certain geographical groups of States. The tabulation is prepared in the following sections:

SUMMARY OF FOREST FIRE STATISTICS FOR 1955
Areas needing protection; areas protected and unprotected; number of fires and area burned on both protected and unprotected forest lands (Pages 1 to 4).

NUMBER OF FOREST FIRES BY CAUSE AND SIZE
For protected areas only (Pages 5 to 8).

AREAS BURNED
For protected areas only (Pages 9 to 12).

The statistics shown are the most reliable information which State and Federal protection agencies were able to obtain.

Since no field organizations are available in unprotected areas to report fires, the statistics on such unprotected areas are merely the best estimates by the States. No estimates were obtained for State and private lands in Arizona, Nebraska, Kansas, and Wyoming.
